

\* tbl\_login

(1)

Primary Key: username.

| Field    | Datatype    | Description |
|----------|-------------|-------------|
| email    | Varchar(50) | username    |
| Password | Varchar(50) | Password    |
| usertype | Varchar(50) | usertype    |
| status   | Varchar(50) | status      |

\* tbl\_registration

Primary Key: regid

| Field    | Datatype    | Description     |
|----------|-------------|-----------------|
| regid    | Varchar(50) | registration id |
| name     | Varchar(50) | Name            |
| address  | Varchar(50) | Address         |
| Phone no | Integer     | contact         |
| district | Varchar(50) | district        |
| location | Varchar(50) | location        |
| email    | Varchar(50) | email           |
| Password | Varchar(50) | Password        |
| status   | Varchar(50) | status          |
| km       | Integer     | distance        |

\* tbl\_groupregistration

Primary Key: group-no

| Field    | Datatype    | Description    |
|----------|-------------|----------------|
| group-no | Integer     | group number   |
| name     | Varchar(50) | name of person |
| head     | Varchar(50) | group head     |
| Phno     | Integer     | contact        |
| district | Varchar(50) | district       |
| State    | Varchar(50) | state          |
| pin      | Integer     | pin            |
| email    | Varchar(50) | email          |
| status   | Varchar(50) | status         |

### \* tbl\_category

Primary Key: cat-id.

| Field     | Datatype    | Description    |
|-----------|-------------|----------------|
| cat-id    | Varchar(50) | category id    |
| cat-name  | Varchar(50) | category name  |
| cat-image | Varchar(50) | category image |

### \* tbl\_Subcategory

Primary Key: subcatid

| Field       | Datatype    | Description      |
|-------------|-------------|------------------|
| Sub-catid   | Varchar(50) | Subcategory id   |
| Cat-id      | Varchar(50) | category id      |
| Subcat-name | Varchar(50) | Subcategory name |
| Image       | Varchar(50) | Image            |

### \* tbl\_Product

Primary Key: Pid

| Field  | Datatype    | Description         |
|--------|-------------|---------------------|
| Pid    | Varchar(50) | Product id          |
| cat-id | Varchar(50) | category id         |
| Pname  | Varchar(50) | Product name        |
| Qty    | Varchar(50) | Quantity of Product |
| uprice | Varchar(50) | unit price          |
| Image  | Varchar(50) | Image               |
| Status | Varchar(50) | Status              |

### \* tbl\_order

Primary Key: oid

| Field  | Datatype    | Description |
|--------|-------------|-------------|
| oid    | Varchar(50) | order id    |
| email  | Varchar(50) | email       |
| Pid    | Varchar(50) | Product id  |
| Pname  | Varchar(50) | Productname |
| Qty    | Integer     | quantity    |
| tprice | Integer     | Total Price |
| Date   | Integer     | Date        |

\* tbl-product\_testing

(2)

Primary Key: tid

| Field   | Datatype    | Description      |
|---------|-------------|------------------|
| tid     | Varchar(50) | testing id       |
| Pname   | Varchar(50) | Product name     |
| tname   | Varchar(50) | test name        |
| result  | Varchar(50) | result of test   |
| labname | Varchar(50) | laboratory name  |
| Date    | Date        | Date of test     |
| Place   | Varchar(50) | laboratory place |

\* tbl-delivery

Primary Key: ordeno

| Field  | Datatype    | Description   |
|--------|-------------|---------------|
| ordeno | Varchar(50) | Order numbers |
| date   | date        | date          |
| Place  | Varchar(50) | Place         |
| status | Varchar(50) | status        |

\* tbl-farmmethod

Primary Key: fid

| Field       | Datatype    | Description |
|-------------|-------------|-------------|
| Fid         | Varchar(50) | Farm id     |
| method      | Varchar(50) | Method      |
| explanation | Varchar(50) | Explanation |

\* tbl-Seedinfo

Primary Key: sid

| Field   | Datatype    | Description         |
|---------|-------------|---------------------|
| sid     | Varchar(50) | Seed id             |
| Sname   | Varchar(50) | Seed name           |
| Variety | Varchar(50) | Seed variety        |
| time    | Varchar(50) | time of cultivation |
| Image   | Varchar(50) | Image of seed       |

\* tbl\_stall

Primary Key: stallid

| Field    | Datatype    | Description         |
|----------|-------------|---------------------|
| stallid  | Varchar(50) | stallid             |
| Seller   | Varchar(50) | Seller name         |
| category | Varchar(50) | category of product |

\* tbl\_stock

Primary Key: st-id

| Field   | Datatype    | Description         |
|---------|-------------|---------------------|
| st-id   | Varchar(50) | Stockid             |
| Pid     | Varchar(50) | Productid           |
| qty     | Varchar(50) | Quantity of product |
| st-date | date        | date of stock taken |

\* tbl\_labdetails

Primary Key: lab-id

| Field     | Datatype    | Description         |
|-----------|-------------|---------------------|
| lab-id    | Varchar(50) | Id of laboratory    |
| lab-name  | Varchar(50) | name of laboratory  |
| lab-Place | Varchar(50) | Place of laboratory |

\* tbl\_Pest

Primary Key: Pid

| Field  | Datatype    | Description         |
|--------|-------------|---------------------|
| Pid    | Varchar(50) | Product id          |
| name   | Varchar(50) | Pesticide name      |
| Mode   | Varchar(50) | mode of preparation |
| usage  | Varchar(50) | usage of Pesticide  |
| status | Varchar(50) | Status              |

\* tbl\_taxi

Primary Key: taxi-id

| Field   | Datatype    | Description    |
|---------|-------------|----------------|
| taxi-id | Varchar(50) | taxi id        |
| name    | Varchar(50) | name of driver |
| phone   | Integer     | contact        |
| rate/km | number      | Rate per km    |

## \* tbl - followups

9

Primary Key: orderid.

| Field       | Datatype    | Description      |
|-------------|-------------|------------------|
| orderid     | Varchar(50) | order id         |
| Pname       | Varchar(50) | Product name     |
| Pdetails    | Varchar(50) | Product details  |
| Cdetails    | Varchar(50) | Category details |
| Pest        | Varchar(50) | Pesticides       |
| Fertilizers | Varchar(50) | Fertilizers      |
| Status      | Varchar(50) | Status           |

## \* tbl - payment

Primary Key: Pay-id

| Field    | Datatype    | Description  |
|----------|-------------|--------------|
| Pay-id   | Varchar(50) | Payment id   |
| order no | Integer     | order number |
| username | Varchar(50) | username     |
| Phone no | Integer     | Phone number |
| Amount   | Integer     | amount       |
| Bank     | Varchar(50) | Bank name    |
| acano    | Integer     | Account no.  |
